EDUCATION

University of benin
Bachelor of Science in
Mechanical Engineering
Graduated: july 2024
Second Class Degree

SKILLS

- Leadership
- Strong Work Ethic
- Punctuality
- Adaptability
- Excellent Communication
- Team Collaboration
- Problem-Solving
- Attention to Detail
- Time Management
- Initiative

LANGUAGE

English

EXPERIENCE

Freelance Web Developer Self-Employed
- Developed dynamic websites using HTML, CSS, JavaScript, and React, ensuring responsive design and cross-browser compatibility.
- Conducted user research and usability testing to gather feedback and iterate on design, enhancing user satisfaction and engagement.
- Managed client communications and project timelines, delivering projects on schedule and exceeding client expectations.

Academic Projects
Capstone Project: Smart meat grilling Automation System
University of benin
- Designed and implemented a smart meat grilling system using elettrica, mechancal,production technologies, allowing users to grill meat without supervision using electricity

About Me

I am a Mechanical Engineering graduate with expertise in backend and frontend development using C#, Python, and Node.js. Passionate about UI/UX design, I aim to create intuitive user experiences. Proficient in MS Office, I excel at presenting ideas clearly and effectively while seeking opportunities in the tech industry.

TECHNICAL SKILLS

- **Programming Languages**:
- **C#**:Proficient in object-oriented programming and developing applications using ASP.NET, ideal for building scalable web solutions.
- **Python**: Experienced in scripting and web development with frameworks like Flask and Django, suitable for rapid application development and data analysis.
- **Node.js**: Skilled in creating scalable web applications and RESTful APIs, leveraging asynchronous programming for high-performance services.
-
- **Web Development**:
- **Frontend Development**: Expertise in HTML, CSS, and JavaScript, with experience in frameworks like React and Angular for creating responsive, user-friendly interfaces.
- **Backend Development:** Knowledgeable in server-side logic, database integration, and API development, ensuring efficient data handling and application performance.
-
- **UI/UX Design And Graphic Design**
- Strong understanding of design principles and user-centered processes, using tools like Figma and Adobe XD to create intuitive prototypes and wireframes that enhance user experience.Creation of logos and more on graphic design
-
- **Software Proficiency**:
- **MS Word**:Skilled in creating and formatting documents, generating reports, and collaborating with team members effectively.
- **MS Excel**:Proficient in data analysis, using complex formulas and pivot tables for efficient data management and reporting.
- **MS PowerPoint**: Experienced in designing engaging presentations that effectively communicate ideas through visuals and animations.
